Windchill: Advanced Object Behavior

ptc university

Find a Class

COURSE TYPE

Class with Hands-on Practice

DURATION

3 Hours

DELIVERY METHOD

Instructor-Led Virtual

CONTENT LANGUAGES

- English

COURSE OVERVIEW

Configure the behavior and associations of objects to benefit the data produced by your user community. Manage the rules, templates, and versioning schemes governing object creation. Finally, create security auditing reports to identify who made changes to the Windchill database.

PREREQUISITES

Windchill: Object and Context Administration

LEARNING OBJECTIVES

- Create and edit subtypes
- Configure attribute layouts for users
- Identify and edit object initialization rules
- Constrain attributes to drive the value of another attribute
- Create templates to provide context and layout structure for users
- Generate license and usage reports
- Implement custom versioning scheme sequences
