

# TRAINING & MENTORING SERVICES

**68%**

employees say training & development is the company's most important policy

**74%**

employees don't believe they are reaching their full potential

**24%**

higher profit margins can be the result of companies who are investing in training

**40%**

employees with poor training will leave the company within the first year

Want to know the secret to getting employees to stay at your company? Maximizing your education is the answer.

We believe there is a **better way to build knowledge.**

EAC Product Development Solutions offers training services and solutions that can provide your team with the skillset they need to transform the way you design, manufacture, connect to, and service your products.

Whether you're looking for a specific PTC training course or a comprehensive package to educate an entire department, our customized approach coupled with our extensive real-world knowledge allow us to provide the best recommendations, training and student experience possible. We maintain an open line of communication during and after training.

To us, training is more than just teaching employees to do a job. It's about investing in the future of your organization. That's why we offer a variety of training and mentoring services to suit any organization's needs.

## LEARNING OPTIONS AVAILABLE:

Public Training

Private & Custom Training

Remote Learning

Personal or Group Mentoring

It's time to take your **education to the next level.**

Contact us today to learn more about how our training and mentoring services can benefit you.
